

Interdisciplinary Graduate Program in  
**Molecular & Cellular Biology**

Spring 2013 Workshop & Seminar Series

**“Timing is everything: prostaglandins temporally regulate actin remodeling during *Drosophila* follicle development”**

**Andrew Spracklen**

(Tootle Lab)

**Molecular & Cellular Biology**

**“AAV vectors in the porcine cystic fibrosis model”**

**Benjamin Steines**

(Zabner Lab)

**Molecular & Cellular Biology**

**Thursday, February 28  
4:00-5:00 p.m., 1289 CBRB**
